- 2. Help Clean up the Country – litter pick weekend**
- 3. General Data Protection Regulation**

Additional late items

4. Defibrillators

We have been asked to be the signatory and responsible authority for at least one or more of the defibrillators which could be procured through Beds Fire and Rescue Service at a reduced cost. It would mean that we have to agree to the financial responsibility for training, ongoing electricity costs, insurance, maintenance and installation (on paper at least) However there are already volunteers in place to project manage and maintain the units and fund raising is taking place to help cover many of these costs. The email and paperwork has already been circulated.

5. CBC Money Management Consultation

CBC is asking for our view on the introduction of a charge for the money management service operated by them for their most vulnerable customers. The Council proposals are to help cover their increasing costs for the service to meet growing and more complex demands placed on it and ensure they continue to deliver a quality service to their customers.
